MEMORANDUM FOR THE RECORD

SUBJECT: Appeal of Mr. Lewis Gulick to the ICRC

1. Ambassador Eisenhower telephoned today stating that Mr. Tufaro had advised him that the Agency has not yet filed a revised memorandum in accordance with the discussion between the Ambassador and Mr. Houston. I indicated we had been working on this trying to do a very careful paper and this would be forthcoming early next week.

2. Ambassador Eisenhower again queried whether or not we were able to be at all forthcoming. I assumed by this he meant either declassification of one or two documents or possibly he meant exhibiting sampling documents to the ICRC. In any event, I advised him we were going to be of no help in this regard. The Ambassador then stated he felt badly about this and possibly he would have to address a letter to the Director on this matter pointing out that there appears to be a fundamental conflict between the Executive Order and the Director's statutory authorities. I assured Ambassador Eisenhower that the Director would give any such letter very careful consideration.
